

GRAPH PRACTICE:

FILL IN THE BLANKS:

$V=D/T$   $A=V/T$   
 DIS-TIME-----slope-----> VEL-TIME ----- slope -----> ACC-TIME  
 DIS-TIM <-----area ----- VEL-TIME <-----area ----- ACC-TIME  
 $D= V * T$   $V= A * T$

Stopped:

Forward constant speed

Backwards constant speed

Accelerating forwards (speeding up)

Decelerating forwards (slowing down)

Accelerating backwards reverse (speeding up)

Decelerating backwards reverse (slowing down)

For the following Dis-Time Graph make an ACCURATE V-T graph

-----  
For the following V-T graph make an accurate D-T graph
